

OMEGA 6

Omega 6 calcium fat powder

Product of Knowledge-based cooperative company of

Kimia Danesh Alvand

Knowledge-based

cooperative company

KIMIYA DANESH ALVAND

Knowledge & Industry Linkage

Rich in omega-6 fatty acids from vegetable oils

Source of omega-6 fatty acids from vegetable oils

No effect on ruminal ecosystem through optimized calcium protection

Enriched with fat-soluble vitamins and antioxidants

The dosage of omega-6 supplementation in the waiting period for calving is 120-150 grams

to 20 grams of omega-6 supplementation in heavy pregnant sheep and goats 10

%Approximate fatty acid profile

15	Palmitic C16
5	Stearic C18
25	Oleic C18:1
50	OMEGA 6 Linoleic C18:2
2	OMEGA 3 Linoleic C18:3
25	Saturated fatty acids
75	Unsaturated fatty acids
52	PUFA
